

Maintenance Engineer (Mechanical)

Assessment Information

Thank you for your interest in the above role. Below, you will find information on how the different competencies outlined in the person specification will be assessed throughout the Recruitment process as well as information on the vacancy timeline. Throughout the process, you will be assessed against the competencies captured in the person specification and the key behaviours set out in the SPS Behavioural Competency Framework (BCF). All Recruitment at SPS is based on the Behavioural Competency Framework which outlines the key behaviours and standards required both of applicants and existing staff. Further details on the SPS Behavioural Competency Framework can be found on the Careers section of our website.

Please note that applications for this vacancy are by CV. Please click on the apply button to access the online application form and to upload your CV. Our shortlisting process will focus on the essential qualification and experience requirements as outlined in the person specification and we would therefore encourage you to ensure that all qualifications and experiential elements as outlined in the person specification are fully evidenced within your CV.
