

UNLOCKING POTENTIAL TRANSFORMING LIVES

APPLICANT PACK

Maintenance Engineer – Electrical – (Electrician) – Establishment

Thank you for your interest in the above role. Below, you will find the job description and person specification with information on how criteria from the person specification will be assessed throughout the recruitment process. You will also find information on the recruitment and selection process and key dates.

Job Description

Job Purpose	
<p>The post holder will support the SPS Maintenance Team in all aspects of Estates work. Delivering preventative and reactive maintenance activities on electrical distribution systems, plant, equipment, and associated assets.</p> <p>There will be a requirement for the post holder to periodically work on call hours (allowance provided). It is expected that the post holder will be able to attend their home establishment within 1 hour. For this reason, a full driving licence that enables the person to drive in the UK is preferred. SPS is willing to consider proposals put forward by applicants to carry out the duties by any other means.</p>	
Key Responsibilities	
1	Carry out reactive / planned maintenance and complete minor works as defined and specified on electrical distribution systems, plant, equipment, and associated assets.
2	Maintain a safe and healthy working environment in accordance with local regulations and relevant statutory legislation.
3	Monitor and adjust systems to ensure optimum performance of the plant and equipment installed onsite. Produce related reports and recommendations as required.
4	Become familiar with the operation and maintenance of the various SPS systems. Providing support and advice on electrical and electronic issues to the Technical Manager. Assisting other members of the team with their activities as required.
5	Complete and sign work orders as issued by the SPS Computerised Maintenance Management System (CMMS). Provide timely pre-emptive condition reports to the Technical Manager as required.
6	Assess and order parts and equipment necessary for individual tasks, in conjunction with the administrator.

Person Specification & Assessment Information

Our selection approach is based upon the principle of merit which means that we will look to appointment the person who best meets the requirements of the role as outlined in the

person specification. In determining the most meritorious candidate, applicants will be assessed against the published criteria during the selection process, as detailed below. The most meritorious candidate will be the one who best meets the essential criteria for the role. Performance against any published desirable criteria will only be considered where two or more candidates have performed equally against the essential criteria and there is a need to use the desirable criteria to identify the preferred candidate.
