## PENSION

### Pension Options

The SPS is a Civil Service employer and we offer a choice of two high quality pension schemes, allowing you flexibility to choose the pension arrangements that suit you best:

1. The ALPHA scheme is a defined benefit career average scheme.

If you decide to join our highly rated ALPHA Pension Scheme, you will pay a low level contribution of 4.6%, increasing to 5.45% (if you progress through the salary points) of your pensionable earnings, with SPS paying employer contributions on your behalf. The current contribution we pay to the ALPHA scheme on the Band C salary scale is 27.1% of pensionable earnings.

2. The PARTNERSHIP scheme is a money purchase stakeholder arrangement.

If you decide to join our PARTNERSHIP Pension Scheme, we will pay employer contributions based on your age that range from 8% to 14.75% of your pensionable earnings. You are not required to pay a personal contribution. However, if you do make personal contributions, we will match this with an additional employer contribution up to a maximum of 3% of your pensionable earnings.

---

As well as retirement benefits both schemes include ill health, life cover and family benefits.

If you have worked for a civil service employer before joining SPS, you may be able to continue with membership of your previous scheme.

New staff members will be issued a pension choices form to complete, but in the meantime will be automatically enrolled into the ALPHA scheme, until the pension choices form is received to confirm which scheme you would prefer to join.

Full details of both schemes can be found at <https://www.civilservicepensionscheme.org.uk/>.
